PROFESSIONAL PROFILE

I study software engineering at the University of Addis Abeba. I've become adept in the area of web development. I've worked on a variety of projects to ensure that I have the right sills in the right quantity. Along with my technical expertise, I also have strong soft skills that provide value to any team. I am able to communicate clearly with both technical and non-technical stakeholders because to my excellent communication abilities. I can use my analytical skills to go through complex situations and discover solutions. In addition, I respect collaboration and teamwork and am a team player.

EDUCATION

D/M Secodnary School,

I excelled in my EUEE, earning the highest score. I received a 627.

Addis Ababa university,

I am 4th year software engineering student at AAIT
